

Aluminum Weld Station MWS-AL

PRO SPOT
A U S T R A L I A

Aluminum Weld Station

The Aluminum Weld Station is designed to meet all of your aluminum repair needs. The station includes a portable welding cart, accessories for aluminum dent pulling, and the AL-5 Capacitor Discharge Stud Welder. The welding cart includes a tool board, utility panel (air outlets, 110V or 220V electrical outlets), a work surface covered with a high quality textured rubber mat, heavy duty adjustable shelves, and a sliding drawer for storage. The AL-5 is designed for aluminum dent pulling and welding UHSS panels.
